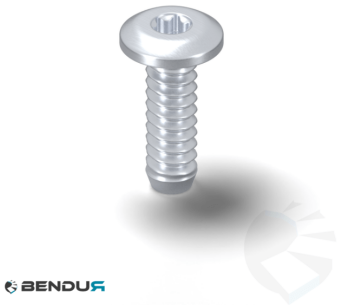
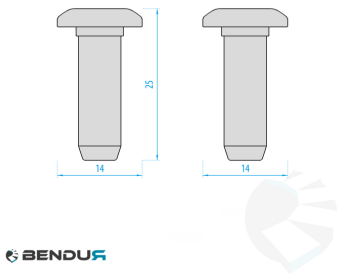
Self forming screw ISB | S7x22 T30

Article number: BT-020915.02.02.T30





View this product online: https://www.bendur.com/uk/self-forming-screw-isb-s7x22-t30-bt0209150202t30.html

Product details

Profile system	ISB
Material	Steel
Finish	Zinc plated
HS-code	7318.14.99.90

Description

With this screw you join two ISB profiles. It forms its own thread in the core hole, so you do not need to tap a thread first. Thanks to the shape of the head and the self-forming thread, the screw makes an electrically conductive (ESD) joint between the profiles.

- Size: S7 x 22, head Ø14 mm
- Drive: Torx T30
- Material: steel, zinc plated
- For ISB profiles
- Weight: 8.7 g
