Product details

Profile system	ISB
Slot type	8
Material	Zinkspuitwerk
Finish	Onbehandeld
HS-code	79070000900

Description

For connecting two aluminum profiles at a 45° angle. The item is delivered as separate components. An M8 hole is required in the profile attached at the end face. No further profile machining is necessary. Using the 45° connector eliminates the need for a miter cut.
