Product details

Profile system	ISB
Slot type	8
Material	Zinkspuitwerk
Finish	Aluminium kleurgecoat
HS-code	7907.00.00.90

Description

With this clamp profile connector you join two aluminium profiles of the 40 series at a right angle, or hang a frame element, such as a guard panel, in a frame structure.

The connector is screwed onto the frame element with the two M8 screws. Together with a matching mounting in the slot of the frame, the upper connector fixes the position and the lower one clamps the frame in place.

- Set: 1 clamp profile connector, 2 socket head screws DIN 912 M8 x 20
- Material: zinc die-cast, powder coated in aluminium colour; screws steel, zinc plated
- For ISB profiles 40 series, slot 8
- Size: 40 x 40 x 40 mm
- Weight: 201 g
