Product details

Product series	CLEANING / FOOD / RETAIL

Description

This castor, with a wheel diameter of 75, 100, or 125mm and a wheel width of 25 or 32mm, has a mounting height of 100, 135, or 160mm and a dynamic load capacity of 75, 80, or 100kg. The fork is made of pressed, galvanized steel with a double ball bearing in the swivel head and a bolted wheel axle. The wheel center is made of electrically conductive polypropylene with a thermoplastic rubber tire.
