Product details

Profile system	CONS
Material	Aluminium
Standard length [mm]	6000
Width [mm]	30
Height [mm]	100
Finish	Geanodiseerd
Color	Naturel
HS-code	7604.29.90.90
Core Count	0

Specifications

Alloy	EN AW 6060 - T6
Weight per meter	1.3 kg/m

Description

This aluminium side protection profile, also known as a bicycle guard or underrun protection for trucks, offers an essential safety solution for motor vehicles, semi-trailers, and semi-trailers. The profile is mounted on the side of the trailer to protect cyclists and pedestrians by preventing them from ending up under the vehicle. With dimensions of 100x30 mm, this profile is durable, lightweight, and easy to install, without compromising safety. Suitable for various types of motor vehicles, trucks, and semi-trailers, this profile contributes to improving road safety, especially in urban areas where cyclists and trucks often share the same space.
