Product details

Profile system	CONS
Material	Glasvezelversterkt kunststof [PA]
HS-code	3926.90.97.00

Description

This black end cap is specially designed for truck side guard profiles. The end cap ensures a neat finish and offers extra protection to the underside of the truck road protection. Side guards, consisting of slats between the wheels, are a legal requirement for all trucks and play a crucial role in increasing safety for cyclists and other road users. This end cap is easy to install and offers durable protection against external influences. This end cap fits profiles of 100 x 30 mm. The end cap is made of plastic, making it resistant to all weather conditions.
