Product details

Product series	LOGISTICS / MANUFACTURING / AUTOMOTIVE
Wheel diameter [mm]	50
Overall height [mm]	82
Wheel width [mm]	22
HS-code	8302.20.00.90

Description

This levelling castor lets you move a frame on its Ø50 mm wheel and then set it down firmly. With an open-end spanner on the orange adjusting wheel you lower a rubber foot until the frame stands still; it also evens out floor differences up to 10 mm. Retract the foot to roll the frame away again.

The castor has an M12 bolt hole thread, for fixing in a transport and foot plate, threaded sleeve or threaded bush.

- Set: castor, double threaded bolts M8/M12 and M12/M12, open-end spanner
- Wheel diameter 50 mm, height 84 mm
- Maximum load: 250 kg
- Housing aluminium die-cast, powder coated white aluminium; wheel black plastic (PA); foot NBR rubber
