Product details

Profile system	ISB
Slot type	8
Material	Steel
Thread diameter [mm]	M8
Finish	Zinc plated
HS-code	7318.15.95.89

Description

This hammer head screw M8x35 fastens parts directly to an ISB profile with slot 8: the head sits in the slot and the threaded end sticks out. You tighten it with a flange nut.

When you tighten the nut, the head bites through the anodised layer of the profile. That gives a secure connection that also conducts electricity (ESD).

- Thread x length: M8x35 mm
- Collar height: 3.0 mm
- Material: zinc-plated steel
- Fits ISB profiles with slot 8
