Product details

Profile system	BSB
Slot type	10
Material	RVS
Thread diameter [mm]	M8
HS-code	73181595

Description

This hammer head screw M8x25 fastens parts directly to a BSB profile with slot 10: the head sits in the slot and the threaded end sticks out. You tighten it with a flange nut.

When you tighten the nut, the head bites through the anodised layer of the profile. That gives a secure connection that also conducts electricity (ESD).

- Thread x length: M8x25 mm
- Collar height: 3.0 mm
- Material: stainless steel (SS316), plain
- Made of a hammer nut with a threaded rod glued in
- Fits BSB profiles with slot 10
