Product details

Profile system	NRB
Material	Aluminium
Thread diameter [mm]	M8
Finish	Anodized
HS-code	7616.99.90.99

Description

This anodized aluminium connection plate joins two 40-series profiles at a right angle in the same plane. The L-shaped plate is screwed onto the front of both profiles with five M8 screws and T-slot nuts, so the corner stays square and stiff without machining the profiles. Light, corrosion-resistant and with a clean silver finish that matches aluminium profiles.

- Suitable for: ISB and BSB profiles, 40 series, slot 8
- Holes: 5x ø9 mm for M8, pitch 40 mm
- Size: 118 x 118 mm, thickness 6 mm, leg width 40 mm
- Material: aluminium, anodized
- Weight: 168 g
