Product details

Profile system	BSB
Material	Steel
Finish	Zinc plated
HS-code	7318.15.48.90

Description

This self-forming countersunk screw fastens parts to the front of a BSB profile. It forms its own thread as you drive it in, so you don't need to tap a thread first.

You can undo the screw and use it again, and it is designed for a strong hold. It also fits the BSB 3-way corner connector 30x30.

- Size: S8 x 25
- Head: countersunk, 15.8 mm, with hexagon socket size 5
- Material: steel, zinc plated and waxed
- For BSB profiles; compatible with metric threads
