Self tapping screw ISB | S7x25 SW5

Article number: BT-020915.02.03.001

View this product online: https://www.bendur.com/uk/self-tapping-screw-isb-s7x25-sw5-bt0209150203001.html

Product details

Profile system	ISB
Material	Steel
Finish	Zinc plated
HS-code	7318.14.99.90

Description

With this screw you join two ISB profiles. It forms its own thread in the core hole, so you do not need to tap a thread first. Thanks to the shape of the head and the self-forming thread, the screw makes an electrically conductive (ESD) joint between the profiles.

- Size: S7 x 25, head Ø13.8 mm
- Drive: hexagon socket SW 5
- Material: steel, zinc plated
- For ISB profiles
- Weight: 11.0 g
