Product details

Profile system	ISB
Slot type	5
Material	Zinkspuitwerk
Finish	Elektrolytisch verzinkt
HS-code	7907.00.00.90

Description

With this universal connector you join two ISB profiles with slot 5 at a right angle, for example a cross member to an upright. The connector sits in a bore Ø11.8 mm in the first profile; the screw goes through it into the slot nut in the slot of the second profile.

You tighten it with a hex key through the bore, so the joint is hidden in the frame and can always be undone.

- For ISB profiles with slot 5, 20 series
- Set: 1 universal connector, 1 T-slot nut slot 5 M4 and socket head screw DIN 912 M4 x 14
- Material: zinc die-cast, zinc plated
- Machining: bore Ø11.8 mm in the first profile
- Weight: 7.3 g
