Product details

Profile system	ISB
Slot type	8
Material	RVS
HS-code	73181900

Description

With this set you join two ISB profiles 40 with slot 8 end to end, quickly and without machining. A threaded cutting sleeve goes into the slot at the end of each profile and cuts its own thread; the M6 x 50 screw runs through both sleeves and pulls the profile ends together. You tighten it with a hex key through the slot.

- Material: stainless steel, plain
- Set contents: 2 threaded cutting sleeves Ø12 x 31 mm and screw M6 x 50
- Tools: hex key size 5 and 6
- Conductive (ESD) connection between the profiles
- A cover cap for the 31 mm sleeve is available separately
