Finish	Anodized
HS-code	7616.99.10.99

Description

This angled aluminium handle is meant for sliding, swing and folding doors on aluminium profile frames.

To fit it, you drill two holes with a counterbore through the profile you mount the handle on.

- Material: aluminium, anodised in natural colour
- Size: 160
- Shape: angled (cranked)
- Machining: 2 counterbored holes through the profile
