Product details

Slot type	8/10
Material	Aluminium spuitgietwerk
Finish	Aluminium kleurgecoat
HS-code	8302.10.00.90

Description

This heavy-duty hinge carries large doors and flaps on 40 series aluminium profiles. The two die-cast aluminium wings turn on a stainless steel pin in PTFE bearings, so the door moves smoothly and without play, even after many cycles. The hinge is non-detachable and is fastened from the front with four M6 screws in T-slot nuts.

- For aluminium profiles and panels, 40 series
- Size: 68 x 96 mm, hole spacing 45 x 62 mm
- Material: wings die-cast aluminium, lacquered in alu colour; pin stainless steel; bearings PTFE
- Fastening: 4x socket head screw DIN 7984 M6 or button head screw ISO 7380 M6 (not included)
- Weight: 155 g
