Product details

Compatible system	ConveyorBricks
Material	Kunststof [PA]
Color	Zwart
HS-code	3926 90 97

Description

This cover is specifically designed to enhance safety by acting as a protective barrier between the round or PolyVee belt and the moving rollers in roller curves. It can be conveniently mounted onto our curve segments after the rollers have been installed. It prevents accidental contact and entanglement, ensuring a safer working environment.
