Product details

Product series	C500 HEAVY-SPLIT
Material	Stainless steel
Footplate diameter [mm]	125
HS-code	3926.90.97.90
Thread diameter [mm]	M24

Description

This stainless steel leveling foot with vulcanized anti-slip rubber features a fully machined base with a diameter of 125 mm and an enclosed and separated spindle with M24 hermetic seals. The total height of this leveling foot is 234.5 mm with a maximum load capacity of 70,000 N. The best choice for industrial environments with a critical hygiene level, such as in the dairy, food, chemical, and pharmaceutical sectors. The stainless steel base and its special shape guarantee high load resistance and excellent cleanability, especially in critical conditions. The protected spindle offers 100% thread protection and prevents exposure to external agents.
