Finish	Powder coated
HS-code	7907.00.00.10

Specifications

Thread	-

Description

This trapezoid base is the foot part of a swivel levelling foot with ball joint 15. It gives a firm, stable footing on uneven floors and swivels up to 20°.

The base is supplied without threaded rod: combine it with a ball joint 15 threaded rod of the thread size you need. An anti-slip plate is already fitted underneath.

- Material: zinc die-cast, powder coated black
- Base 80: Ø76 mm, 20 mm high
- Maximum load: 3,000 kg
- With anti-slip plate
