Product details

Compatible system	ConveyorBricks
Material	Staal
Finish	Gepoedercoat
Color	Zwart
HS-code	7326 90 98

Description

The innovative 15° segments from the ConveyorBricks series are specifically designed to create smooth and precise curves in roller conveyor systems. By assembling multiple segments in sequence, you can effortlessly configure curves of 30°, 45°, 60°, 75°, or 90°, perfectly tailored to meet the specific needs of your project. This inside curve segment is engineered for a rated width (BF) of 620 mm and a roller pitch of 60 mm (P60). When paired with tapered rollers from your preferred supplier, it allows you to construct high-quality and reliable curves with ease.
