### Product details

| | |
|---|---|
| **Product series** | S400B |
| **Footplate diameter [mm]** | 80 |

### Description

This stainless steel leveling foot with floor mounting and anti-slip rubber features a molded base with a diameter of 80 mm and an enclosed spindle M12, M16, M20, M24, M30, or M36. The total height of this leveling foot is 190 to 300 mm with a maximum load capacity of 12,000 or 15,000 N. It is ideally suited for industrial environments where a high level of hygiene and heavy loads are required, such as in the food, chemical, and pharmaceutical sectors. The stainless steel base and its distinctive shape guarantee high load resistance and excellent cleanability, even in critical conditions. The protected spindle prevents the threaded section from being exposed to external substances.
