Product details

Product series	C500 SPLIT
Footplate diameter [mm]	150

Description

This stainless steel leveling foot with vulcanized anti-slip rubber features a cast base with a diameter of 150 mm and an enclosed and separated spindle with hermetic seals M12, M16, M20, M24, M30, or M36. The total height of this leveling foot is 195 to 305 mm with a maximum load capacity of 12,000, 30,000, or 45,000 N. The best choice for industrial environments with a critical hygiene level, such as in the dairy, food, chemical, and pharmaceutical sectors. The stainless steel base and its special shape guarantee excellent cleanability, especially in critical conditions. The protected spindle offers 100% thread protection and prevents exposure to external agents.
