Product details

Product series	C500 HEAVY-SPLIT
Footplate diameter [mm]	105

Description

This stainless steel leveling foot with vulcanized anti-slip rubber features a fully machined base with a diameter of 105 mm and an enclosed and separated spindle with hermetic seals M12, M16, M20, M24, M30, or M36. The total height of this leveling foot is 184.5 to 294.5 mm with a maximum load capacity of 12,000, 30,000, 45,000, 70,000, 100,000, or 120,000 N. The best choice for industrial environments with a critical hygiene level, such as in the dairy, food, chemical, and pharmaceutical sectors. The stainless steel base and its special shape guarantee high load resistance and excellent cleanability, especially in critical conditions. The protected spindle offers 100% thread protection and prevents exposure to external agents.
